

MRA QUICK THREAD

Tufting machinery
at its best sold
and serviced all
over the world by
a company that
you can trust

STRONG

DURABLE

EFFICIENT

CTS Group is an Australian owned and based company with over 25 years experience in the Tufting industry and exports their machinery all over the world.

Our machinery is made from the highest quality material with then most sophisticated design.

The MRA Quick Thread tufter allows superb patterning to be made using SERVO controlled Yarn fee rollers with our exclusive Quick thread attachment. The Yarns are wrapped around the individual yarn feed rollers and are controlled accurately by computer control to allow patterns to be made using Buried end technology.

CTS can couple to this technology a further patterning expansion system including SERVO Cloth feed and Servo Sliding needle bars.

Tufting speeds up to 800RPM is achievable.

CTS use modular gauge parts to contribute to the accuracy of the Super graphics patterning abilities.
